Mary:

Thanks for the update. Tuesday afternoon sometime between 3:00 and 5:00 would work for me. Let me know if these times don't work for you. Should we invite David Webster?

Subject: Burlington Vermont - Integrated Permitting

Hi Kevin. I have spoken more with Burlington reps about their desire for using integrated permit(s) for implementation requirements under the Lake Champlain TMDL. As we've discussed previously, the TMDL requires Burlington to upgrade 3 wastewater treatment plants, reduce phosphorus contributions from its CSO system, and undertake significant stormwater retrofits. Megan Moir (Burlington) and I would like to schedule a conference call with you next week to discuss how to move forward with this effort. I recently spoke with Dave Webster from Region 1, and he is supportive of exploring integrated permitting for Burlington.

My calendar looks relatively free next Tuesday and Wednesday afternoon. Do either of these afternoons look good for you?

Mary
